Mabel

Journal Freely. Share Beautifully.

A journaling app that transforms your thoughts into polished narratives

What is Mabel?

Everyone has stories worth sharing, but raw journal entries are messy and often unpublishable. So they sit in Notes apps, gathering digital dust.

Mabel is a journaling tool that transforms your thoughts into polished narrative.

Unlike traditional memoir services that ask you to commit to a year-long writing project, Mabel lets you capture life as it happens. Journal whenever inspiration strikes—by voice or text—and Mabel does the polishing work in the background.

Over time, your entries become chapters. Your chapters become a story. And when you're ready, you can export a PDF book or order a fully narrated audiobook of your own life.

How It Works

Mabel is designed to fit into your life, not force you into a rigid schedule

1

Capture Your Thoughts

Journal whenever inspiration strikes. Speak into the app or type your thoughts. No prompts, no pressure, no blank page anxiety.

2

AI Polishes Your Words

Mabel transcribes your voice and transforms your entries into polished, first-person narrative. Your voice, just more readable.

3

Build Your Story

As you journal, Mabel organizes entries into chapters. When you have enough chapters, export a PDF book or order a narrated audiobook.

Building the Journaling Habit

Mabel includes gentle reminders and gamified features (streaks, milestones, chapter completion) to help you develop a consistent journaling practice. The goal isn't to finish a book in a year—it's to capture life as you live it.

How Mabel Is Different

Mabel vs. traditional memoir services like StoryWorth

Feature	Mabel	StoryWorth
Mental Model	Journaling habit	Memoir project
Time Commitment	Journal anytime	52 weeks, 1 prompt/week
Input Method	Voice-first (or text)	Email prompts → typing
AI Polish	Narrative transformation	Basic formatting
Pace	Your schedule	Weekly deadline
Output	Export anytime (PDF/audiobook)	Hardcover book after 1 year
Best For	Active journalers & beginners	Family gift projects

In short: StoryWorth says "write your memoir." Mabel says "journal your life, and let AI polish it into something shareable." Journaling is a daily habit. Memoir writing is a daunting project. We chose the former.
